

Personal Strategic Planning

Your Future by Design not Chance

The best way to predict your future is to create it! Rather than leaving success to chance, business owners and corporate leaders have long utilized the Strategic Planning process to determine their future direction and the resources they need to ensure success. Leaders achieve long-term, sustainable success when they balance their vision with their available resources. The planning process provides a strategy for closing the gap between goals and reality.

The Value of Personal Planning

Now you can apply proven business planning processes to expand effectiveness into every aspect of your life! SynRG's Personal Strategic Planning Process offers individuals access to the same format, methods, and tools that business leaders use to convert their vision into strategies and measurable goals. Participants are inspired to reach continuously higher levels of achievement through enhanced focus, motivation, commitment, and action planning.

The Holistic Approach

SynRG's Personal Strategic Planning provides participants with an opportunity to design their own **Work-Life Balance** by:

- Exploring their dreams to develop their personal vision
- Assessing their talents, interests, attitudes, and values to define their mission
- Evaluating the gaps between their ideal and their actual circumstances
- Modifying their behavior to achieve their goals.
